

## PRODUCT INFORMATION

Manufacturer deltaVision GmbH

Hofmannstr. 50 81379 München

Germany

Product Safety Valve

Product type S4a

	S4a
Weight	150 g
Dimensions	69 x 31 x 26 mm
Nominal diameter	4mm
Operating pressure	Up to100 bar
Pressure range	25-100bar
Approved operating fluids	Inert media, Hydrocarbons, H2, O2 Optional: Storables, N2O, HTP (short term)
Proof pressure	Up to 150 bar
Ambient temperature (range)	248K 343K (designed, tested at RT)
Interfaces	1/4" tube + G 1/4"
Exhaust	8mm
External leakage	<1e-2 scc/s GN2
Flight Heritage	No

**Please note:** Delivered valves are tested according to the specifications defined in the corresponding sales order. The values shown represent the upper performance limits, with actual configurations optimized for the best balance of parameters to meet your application needs and budget.
